RAW MANGO JUICE

INGREDIENTS:
MANGO, SALT, SUGAR, MINT LEAVES, LIME JUICE, WATER.

Recipe:
Wash, peel and chop the mango. Take mango and sugar into a blender.
Grind into smooth puree.
Then add water and blend it again.
Strain the juice and discard the fibrous pulp if any. This step is optional though.
Keep refrigerated, chilled till serving.

Ayana Sarkar
9-B

Aam Panna (raw mango juice)

Ingredients for Aam panna
Fresh mangoes
Mint leaves
Spices

Mint Lemonade

Ingredients
1 cup of fresh chopped mint leaves, 1 lemon, 2 tbsp sugar, a pinch of salt and 1 cup of water.

Procedure
1) Wash all the ingredients well.
2) Put the chopped fresh mint leaves, sugar, lemon and pinch of salt in the mixer grinder.
3) Grind well.
4) Now pour the lemonade in a glass and garnish it with lemon and mint leaves and add some ice cubes.
5) Our Mint lemonade is ready to be served.

---Akshita Agarwal(D)

Wash the mangoes and peel them

Take a saucepan and put the mangoes in it with 1 1/2 glass of water in it and add the following spices

1. Salt as per taste
2. Black salt 1/2 teaspoon
3. Black pepper powder 1/2 teaspoon
4. Red chilli Powde 1/2 teaspoon
5. Suger 1/2 cup

WATERMELON MILKSHAKE

Ingredients required:
1) Chopped ripe watermelon (seeds must be removed)
2) Cashew nuts (chopped) (30g)
3) Powdered milk (4-5 table spoon)
4) Cow's Milk (3-4 cups) (Boiled and cooled)
5) Sugar (4 table spoon)

Steps:
All the ingredients are to be placed in a BLENDER and blended smoothly [no lumps must be present]. Now, pour the milkshake in a glass. I have decorated it with dry fruits [Decoration depend on choice].
READY TO BE SERVED!!!

Now put the lid on the saucepan and let the mangoes boil until they turn soft. After cooking turn the gas off and let the mixture cool. When the mixture is cooled transfer it in a mixing jar and grind the mixture until fine .

Now our concentrated aam panna is ready. Pour it in a glass and add water and mint leaves. Now our refreshing aam panna is ready

Chop some fresh bananas.
Put them in a blender.
Pour in a glass of milk.
Add sugar.
Blend it
Top it with some cashew and badam.

APARUJA SINHA '23

INGREDIENTS:
2 bananas
Castor Sugar
1 glass Milk
Cashews
Kesar badam

Banana Milkshake

Mango chutney

INGREDIENTS

1/2kg mangoes ,oil
100g, sugar 200g ,2 red chilli,salt ,haldi ,raw cashew nuts ,jaggery 200g , Dried bay leaves.

PRODUCE

1. Heat oil in the pan then add Vietnam black pepper and dried bay leaves.
2. After sometimes add the mangoes,peeled and cut in 3/4 inch pieces than salt 1spoon ,haldi 1spoon.
3. And in the end add sugar and jaggery than leave it for 15mins.
4. The chutney is ready to be served!

---Sofia Sha
(IX-B)

Orange juice

Ingredients: Orange
Quantity: depending on people to serve

Method

1. Peel the oranges
2. Then make the juice
3. When the juice is ready. Decorate any way you want

Sudasi Prasad

Wood Apple Juice

(Beal juice or Bengali gerasol juice)

Ingredients required-

- 1) Half a Beal or wood apple's pulp
- 2) 2 tbsp sugar (or as per taste)
- 3) 1 tsp mountain salt (or as per taste)
- 4) 1 slice lemon's juice
- 5) 1 glass cold water

Recipe-

- Wash the wood apple well, and break it open
- Then take the pulp out with the help of a spoon
- Pour the pulp into a bowl with cold water
- Mash the pulp into the cold water properly
- Strain the mixture so that the seeds or any other particles are removed
- Then add sugar, mountain salt and lemon juice as per taste or as mentioned above.
- Serve chilled

Recipe equivalent to 1 glass. please multiply the ingredients if making in a large quantity

AAM PANNA

Ingredients:
4 Roasted/bottled mangoes, 4 glasses of water, salt, sugar as per taste, 1 tea spoon roasted cumin powder, 1 table spoon black paper powder, mint leaves (optional)

Procedure:

- 1) First Peel off the roasted or boil mangoes then add water to the paste and mix it well
- 2) Add salt, sugar, cumin powder and black paper powder and shake it nicely
- 3) Put some mint leaves at the top
- 4) Now the aam panna is ready to be served

WATER - MELON JUICE

Ingredients:

Water melon, ice cubes, mint leaves

Process:

Cut the water melon into small pieces. Scoop out the seeds gently with a knife. Grind the melon in the mixer. Pour it into the glass. Put some black salt and ice cubes. Garnish the water - melon juice with mint leaves. And the Water - Melon Juice is ready to drink.

CHATPATA CHUTNEY

Ingredients

- 4 Raw mangoes cut in small pieces
- 250g jaggery
- 1/2 tsp mustard seed
- 1 tsp roasted cumin powder
- 2 Green chillies
- Salt acc to taste

Method

- Heat oil on a pan. Add mustard seeds and green chilli.
- Add the mango pieces. Add salt according taste. Sauté it for 2 minutes.
- Add grated jaggery. Stir it until jaggery melts.
- Lower the temperature and let the mango cook for 3-4 minutes.
- Once the mango is cooked properly, add roasted cumin powder.
- Turn off the heat.
- Let the chutney cool for a few minutes and it will thicken up to.
- Serve the chutney with your favourite dish

Elora Samanta 9B

Vegetable poha

Ingredients:

Poha, onion (2-medium size), capsicum 1 pc, Carrot 1 pc, coconut grated, coriander leaves, mustard seeds.

Recipe:

In a hot pan, put 2 spoons of oil and add mustard seeds, put the chopped onions and fry them till golden, put the vegetables and saute them for 2 minutes. Add salt, pinch of turmeric and chillies then add the pre soaked poha to the pan. saute for a minute and garnish with grated coconut and coriander leaves.

Watermelon Juice

Ingredients:

- 4 cups seedless watermelon chunks
- 1/2 cup unsweetened cranberry juice
- 2 tablespoons sugar, or to taste

Melon balls on cocktail sticks, to decorate

● Pour into chilled glasses and serve decorated with melon balls on cocktail sticks. Add paper umbrellas if you want to get fancy-enjoy!

LORETO DAY SCHOOL, BOWBAZAR
EVERY DAY IS EARTH DAY

Earth day, as celebrated on 22nd April each year, is a day to show our support towards Mother Nature with its rich biodiversity. Earth Day is dedicated to the bountiful Mother Nature and with each passing year, as the world battles a climate crisis, Earth Day is gaining significance. It is not an unknown fact that since the beginning of the appearance of man on earth, we have strived for growth and modernization. This modernization has no doubt made our lives easier but everything comes with a cost. We on earth are not the only living beings. If the whole earth consists only of a large number of living beings, we can also consider our earth as a being. Someone who needs love, affection and care just like us. For centuries, humans have become so captivated with our big machines and factories, that we forgot to give the love and care that our earth, our home needed.

We celebrate Earth day to show to the rest of the world that it is high time that we all start giving the long overdue love and care to our home. With urbanization, each day more and more forests are cut down for industrial purposes and the tremendous amounts of green-house gases released from all the factories adversely affect the health of mother earth. For the past few generations, we have been nothing but selfish, taking all that the earth has to offer and giving nothing in return. This way not only do we damage the earth, but also destroyed the habitat of many animals, thus bringing about the mass extinction of various species of animals. Through the celebration of earth day, we aim to raise awareness and take action to prevent the degrading of the earth any further and instead, help provide a healthier environment not just for us, but also for the other creatures inhabiting the earth.

RECITATION (CLASS-4)

There was nothing for me to do today
 So, I decided that I would finally step out of my room,
 Feel the warmth of the sun again,
 While the river gently kisses the soles of my feet.
 While the wind gently makes the grass around me dance.
 Listen to the voice of the melodious birds chirping a lovely song,
 Sniff up the slight fragrance of roses in the air.
 I would surrender myself to the beauty of the marvellous sights around me.
 It would surely be a day well spent,
 A day where I reconnect with mother earth.
 A day where I appreciate nature before they eventually become my eternal host.

LORETO CONVENT DARJEELING

Earth Day has gained significance over the years due to the fast-depleting greenery around us, rise in pollution and excessive usage of plastics items. The 22nd of April marks as Earth Day and this year as well, students of Loreto Convent School, Darjeeling actively participated in it. They contributed their efforts with pictures, writings, creative art work, videos, sharing of summer drinks and chutney recipes. Their work speaks volumes about their enthusiasm and the ever readiness to protect our planet earth.

Blue Moon Drink
~Shanon Lama

Ingredients:
Ice cubes
Mint leaves
Blue food colour
Lemon juice- 1 tsp
Black salt- 1/4 tsp
White cold drink
Lemon slices

Procedure:

- ★ Put a few ice cubes in a glass.
- ★ Pour half a glass of white cold drink in the glass.
- ★ Add 1/4 tsp of black salt.
- ★ Add 1/4 tsp of lemon juice.
- ★ Now fill the other half of the glass with the white cold drink.
- ★ Add a few drops of blue food colour in the glass and mix it well.
- ★ Garnish the drink with lemon slices and mint leaves and your Blue Moon Drink is ready.

Rose Mojito

Stuti Gurung

Ingredients
Rooftop Afza 1-4 tbsp, fresh lemon, mint leaves, soaked chia seeds 1 tbsp, soda/water, ice cubes (optional), black salt (a pinch).

Procedure

- Squeeze the lemon in a sipper/glass.
- Add mint leaves, rooftop afza and black salt.
- Add the soaked chia seed.
- Give it a good stir.
- Add ice cubes
- Finish the procedure by adding soda/water

voila! your rose mojito is ready, now all you need is a good and relaxing summer day.

Tashila Sherpa

Aegle marmelos juice recipe (bael)

By tashila sherpa

INGREDIENTS (1 CUP = 250 ml)
* 1 ripe bael fruit medium size
* Sugar or jaggery as required
* 1/4 tsp cinnamon powder optional
* 1/4 tsp nutmeg powder optional
* Filtered water as required

INSTRUCTIONS

1. Wash, open the rind fruit with a stone or metal object and by using a spoon, scrape out all its pulp into a large container.
2. Press the pulp hard and squeeze out all its juice. Add little water to make the mixture liquid. Discard all the seeds and fibres.
3. Add water in it and add the require amount of sugar and cold-water. Mix it well sugar melts.
4. Add the cinnamon and nutmeg powder and serve.

Bael naturally fights viral and bacterial infection, can reduce inflammation, and is considered a good cure for a number of diseases.

It is also considered to be best summer drink

Soyabean, Peanut, Aachar

~Shanon Lama

PROCEDURE:

- ★ Bring 3 to 4 cups water to boil, and add Soya chunks. Squeeze off the excess water from the chunks.
- ★ Add them to a mixing bowl along with corn flour and salt
- ★ Heat a pan and put some oil to fry the Soya chunks

Ingredients

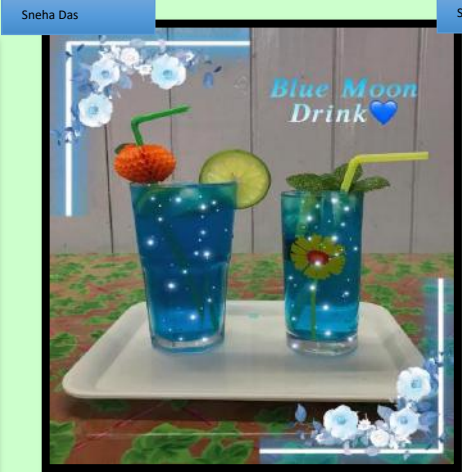

- ★ Roast the peanut as well till it becomes light brown.
- ★ Roast the sesame seeds and keep them aside.
- ★ Now bring a bowl and put all the ingredients together in it.
- ★ Pour some hot oil in the mixture and mix it well and now our Aachar is ready.
- ★ Put the aachar in a platter and garnish it with sesame seeds, kasuri methi and rosemary/mint leaf.

Soyabean- 100 gms
Peanut- 100 gms
Chilli flakes- 1 tbs
Kasuri methi- 1 tbs
Tilchhalai- 1 tbs
Sesame Seeds- 2 tbs
Pinch of Ajinomoto
Salt- 1/2 tbs

Mango Juice Recipe

- 1- Wash, peel and chop the mango. Take mango and sugar into a blender.
- 2- Grind into smooth puree.
- 3- Then add water and blend it again.
- 4- Strain the juice and discard the fibrous pulp if any. This step is optional though. Keep refrigerated, chilled till serving. Juice made from fresh mangoes has very refreshing taste. Seasonal mangoes, this protein rich quencher is best for those trying to gain weight.

By Sneha Das

A Better Place by Choden Sherpa, Class 8 C
Earth is known for its perfect beauty,
And To protect it is our sacred duty.
Always being ungrateful for it,
In this splendid world we humans don't even fit .

Rivers filled with garbage instead of water,
We talk about it,
when tons of garbage are just found in the gutter.
Animals getting extinct,
it feels like we are in a world distinct.
Thousands of trees being cut everyday,
to protect it we all shall pay.
We should do our part to save the Earth,
She is not just our home, but also our mother.
We all should pledge to make this world
a better place, its flawless beauty people gaze...

A Little Hope by Utkrishta Chettri, 8B

Do we remember our nature's beauty?
 Or have we all forgotten our duty?
 Have we taken our time to look around us?
 Or decided to take the destruction bus?
 Before us I think the world was green,
 And was filled with mysteries unseen.
 But as our desires grew,
 Our Earth did not remain as good as new.
 For once can we all just pause,
 And think of all the cause.
 For great, wonderful beasts are gone,
 Do we want this to carry on?
 Her beauty so rare,
 Which she is always willing to share.
 Birds singing a beautiful song,
 Are long lost and long gone.
 From now let us take a little move,
 And try our best to improve.
 We humans, we may be smart,
 But have we tried to see through nature's broken heart?
 If you love music have you just stopped,
 To hear nature as she sobbed?
 For Mother Nature has trust in you,
 And I am sure you will want to help the world where you grew.
 So let us save dear nature, save,
 And stand up for right and be brave.
 These are just words written by me,
 But together we can save a tree.
 So let's save our mother Earth,
 And come to know how much she is worth.

Environment is not a thing, it is our surrounding, it is everything around us which includes plants, our most staple food and animals who keep the food chain circling. In order to survive, we need our environment.

Many trees are being cut down everyday, many animals are being slaughtered mercilessly, but for our own needs. We need paper, firewood from trees, proteins to stay fit and healthy from the meat of animals. These are necessary for us but we tend to do things excessively and don't think about the damage. Nowadays, due to less trees, the air isn't pure as it used to be, more cities are now in the place of big, dense forests, more pollution is occurring due to plastic, the new famous non-biodegradable substance and create more problems. If we together plant trees and saplings and use less plastic and be more conservative, the future generation will have enough to thrive on the planet peacefully.

Our environment is very precious and it is getting depleted. Thus, we need to protect and save trees and animals because our life depends on them.

Khushika Gurung, Class 8 C

LORETO CONVENT DELHI

MANGO MILKSHAKE

Ingredients:

- 2 large ripe mangoes
- 2 cups of milk
- 2 tablespoon sugar
- 2-3 ice cubes

(1) Wash, peel and chop mangoes into small pieces and remove the seed. Transfer them to a blender jar.

(2) Add milk and sugar to taste or sweetness and some ice cubes.

(3) Blend smoothly and then pour the shake into serving glasses. Garnish with some dry-fruits (available at home) and a scoop of any flavored ice cream.

Veena Jamdar 6A

Pomegranate Lemon Cake Shake

Ingredients

- 1. Pomegranate- 1/2 cup
- 2. Fresh cream- 1/4 cup
- 3. Milk- 1/4 cup
- 4. Vanilla essence- 2 drops
- 5. Orange essence- 2 drops
- 6. Sugar- 1 tablespoon
- 7. Ice cubes- 3-4 cubes
- 8. Lemon cake

Instructions

- 1. Combine fresh cream, milk and sugar.
- 2. Put pomegranate.
- 3. Add vanilla essence and orange essence.
- 4. Add ice cubes and blend.
- 5. Put a few small pieces of cake in the glass and pour milkshake on top.

WOODLAND -A JEWEL OF EARTH

Once in a lifetime you must see,
A woodland full of lovely trees.
A woodland that may in winter wear
Protect creatures from cool air.
A woodland that may in spring wear
Bloom flowers on their hair.
A woodland that may in summer wear
Spread shed everywhere.
A woodland that may in monsoon wear
Send fragrance in atmosphere.
A woodland that may in autumn wear
Get ready for its new wear.
Take a pledge like me,
Restore our Earth by planting a tree.

Navya Ahuja X-B

OH! MY PLANET EARTH

Oh! my planet Earth,
We humans burden you very much
Trees are cut, don't know how much

Pure air to breath, going out of reach
Sparrows not to be seen, only towering
concrete
Trees we plant, only for the cameras
Or we paint them on the canvas

We are busy, polluting water with our waste
No river now remains completely safe
We struggle to get clean water
Ultimately we use Bisleri water

Mother Earth loves us very much
We shouldn't make her angry so much
Save our water and plant more trees
Ask forgiveness for all our deeds.

SAMANVITHA TEJUS IV A

LORETO DAY SCHOOL, DHARAMTALA

It was in 1970 that the UN proclaimed 22nd April as World Earth Day to spread awareness against its unprecedented destruction and the need to conserve its resources. This year the theme of Earth Day is "Restore Our Earth".

"We do not inherit the earth from our ancestors; we borrow it from our children" is an ancient proverb. It is our responsibility as well as duty to give the future generation a healthy and not an abused planet. Since the beginning of the industrial revolution human beings have mindlessly and selfishly destroyed and polluted this planet, harming not only themselves, but also many species of flora and fauna. Environmental calamities are a warning of the impending disaster. We need to act NOW else there will soon be no life on earth! It is time to get over our blissful ignorance and unite to restore the only home we have, because WE do not have a planet B to travel to leaving our planet bare, barren and poisonous. - Debanwita Das-8

Ingredients :
 Lemon juice 2 tsp
 Watermelon 1/4 cup
 Power sugar 1 tsp
 And soda half a cup

Method:
 Pour some lemon juice watermelon and powder sugar in a glass and muddle it properly. Pour in a another glass and add some crushed ice to your drink. And now your drink is a perfect summer cooler.

- Sarah Vio Nathan 6B

Restore Our Earth

"One of the first conditions of happiness is that the link between man and nature shall not be broken," said Leo Tolstoy and we humans have been foolish enough to break it. The year 2020 has shown us how foolish we have been. We have destroyed the earth that was gifted to us in all its glory and treated it so badly, that nature had to punish us. Today we live in fear of what the future holds for us.

The biggest mistake we make is, thinking that the earth needs us to survive. No, it does not. It is the humans who need the Earth to survive. The world does not belong to humans alone. Humans have caused destruction for their own benefit and have upset the balance in the eco system, forgetting that they too will not survive if other species to which the world belongs become extinct. The time has come for us to "Restore Our Earth" if we want to survive. We need to be 'educated' to do this.

To build a sustainable society, environmental and climate literacy, are very important. We need to educate ourselves that **reforestation** is not just about planting a few saplings and watching them grow but ensuring that the **plant species are in harmony with the existing ecosystem**. We also need to educate ourselves on using **biodegradable and recyclable commodities** and **sparingly use the available resources**. **Water conservation** is also of prime importance.

It is time we all came together to "Restore Our Earth" for survival.

Srishti Chattopadhyay
Class - VIII Section - B

INGREDIENTS:

- Mango
- Mustard seeds
- Dry Chillies
- Sugar
- Salt

METHOD:
 Heat oil in a pot, add mustard seeds dry chillies.
 Add mango, water, sugar and salt to taste.
 Stir it time to time till the syrup becomes thick.
 Cool it and place it in a jar and it is ready to serve.

SAMRIDHI SINGH
XII

LORETO INDIA

The mango pulp paste is made by mixing it with 5 tablespoon mint leaves and 1 ½ cup of sugar in the grinder. One tablespoon of the above mango paste is added to a glass of water (200 ml) and mixed well. To the solution 1 tsp of cardamom powder, 1 tsp of pepper, 1 tsp of cumin powder and 3/4th tsp of salt are added. Four ice cubes are added to the juice. The drink is decorated with 2 mint leaves and served.

Uzma Fatma Anwar- Class VI

BLUE LEMONADE: First, crush 8 -10 pieces of mint leaves and cut 1 lemon in half. Squeeze lemon & mint together and collect juice Now take a glass and add powder sugar 1 tsp, ice cubes 5-6, lemon & mint juice 1 tsp , curacao syrup 1 ½ tbsq, chilled soda water as per requirement of glass. Mix it well altogether. Now put 1 lemon slice & few mint leaves in glass. Garnish with lemon slice on top of the glass. Made by Aliza Siddiqui Class – V

MANGO CHUTNEY: First peel the mangoes and cut them into pieces. Marinate the mango pieces with sugar and let it rest for 1 hour. Then boil the mangoes for 10 minutes in water. Take another pan and add 1 tsp of cumin seeds, 1 tsp of coriander seeds 1 tsp of fennel seeds. Roast all the seeds together then grind it to make powder. Now add the powder in mango mixture then add ½ tsp of red chilly powder and ½ tsp of salt. When the mangoes are soft, add 1 tsp of white vinegar & garnish with dates and cashew nuts. Now the sweet mango chutney is ready to shrewmouse Benazir Nur Class: V

SIGNAGE: The students of class VI made it simple for the people to understand the importance of the Earth and its resources through some simple signage.

- * Blend until the mangoes are smooth.
- * Pour the yogurt and run the blender once more until smooth, thick pouring consistency.
- * Serve mango lassi chilled.
- * Garnish with sliced pistachios and cardamom powder.

B. Himani Shriya (3-1)

Mint Yoghurt Chutney

Ingredients-

- 1 cup Yoghurt
- 1/2 cup Coriander leaves, chopped
- 1 cup Mint leaves, chopped
- 1 green Chilly, chopped
- 1 inch Ginger, chopped
- Oil
- Salt

Method-

- Grind the coriander & mint leaves along with green chilly & ginger
- Add water, if required. Grind to form a smooth paste. Once that is done, add the coriander mint paste into the yoghurt
- Add enough salt & mix to form a light green creamy chutney. Transfer it into a bowl & garnish it with mint on top

Sarvi, Class III, Sec I

WATERMELON LEMONADE

ingredients

- watermelon
- lime
- mint leaves
- ginger
- sugar
- rocksalt

procedure

- wash the ingredients well.
- cut the watermelon into small cubes & the ginger into small pieces.
- put the above ingredients into a mixer.
- squeeze the juice of one lime & also add 10-12 mint leaves with some sugar & a pinch of rocksalt.
- add half a cup of water.
- mix the ingredients well in the mixer.
- pour out the juice into a sieve & sieve it out in a glass.
- add some ice cubes & garnish it with mint leaves serve.

CHILLI CURD CHUTNEY

Ingredients-

- Coriander seeds- 2 tbsp
- Cumin seeds- 1 tbsp
- Whole dried red chillies- 2 pieces
- Garlic cloves- 10 cloves
- Oil- 4 tbsps
- Salt- according to taste
- Curd- 4 tbsps
- Kashmiri red chilli powder- 1 tsp

Method-

Grind garlic cloves, cumin & coriander seeds & dried chillies. In a pan, fry the masalas till they turn brown. Then add the red chillies powder dissolved in water. When oil starts to separate, add curd and salt. Cook well till oil comes on the surface.

COCONUT CHUTNEY

INGREDIENTS

- 1/4 cup chopped coconut
 - 1/4 cup fresh coriander leaves
 - 1/4 tsp fried chana dal & urad dal
 - 1/4 inch ginger
 - 2 green chilies
 - Tamarind as needed
 - 1/2 teaspoon cumin
 - Salt as needed
- FOR TEMPERING**
- 1 tsp oil, 1/4 tsp mustard seeds
 - 1 broken red chili, 1/4 tsp cumin seeds
 - 1 sprig curry leaves, pinch of hing

PROCEDURE

1. Add all ingredients to a blender and pour 1/4 cup water and blend to a smooth thick chutney.
2. For tempering, heat oil in a small pan. Add mustard, cumin and red chilies.
3. When the seeds splutter, add the curry leaves and hing. Pour this on the chutney.
4. Give a stir and serve.

LORETO CONVENT SCHOOL, LOLAY

On 22nd of April 2021, Loreto Convent School Lolay has organised an online plantation programme and poem competition based on Earth Day.

LORETO INDIA

Save Our Home

Mother Earth you are silent and beautiful
Your affection towards us is
Kind in everyone's life,
You are the provider of nutritious food,
You are the creator of beautiful environment,
Giver of beautiful gifts, we are grateful towards you.

You work for us to give us gifts,
Your soft cover and in your fertile soil,
We grow crops and vegetables Mother Earth,
You are the protector of all beings.
The depth of your love cannot be compared,
Oh! Mother it is incomparable.

WATERMELON-LEMONADE

Ingredients- Watermelon, lemon, water and sugar.

Step 1: Cut a watermelon into small pieces.

Step 2: Make watermelon puree using a whisk/fork.

Step 3: Use a strainer to separate the watermelon juice from the pulp and seeds.

Step 4: Take a saucepan and add half cup of water and four table spoons of sugar.

Step 5: Bring the mixture to a boil and switch off the stove when the consistency of the syrup thickens.

Step 6: Transfer the syrup into a bowl and allow it to cool.

Step 7: Take a glass and fill ¼ of it with watermelon juice.

Step 8: Slice a lemon into a circle and put it into the juice.

Step 9: Add 3 table spoons of the syrup.

Step 10: Fill the glass with the remaining watermelon juice.

Step 11: Squeeze lemon juice into the watermelon mixture.

Step 12: Cut a slice of lemon and watermelon and decorate the glass with the fruit slices.

MANISHA PAHARI-IX

Where do we stand*

Twenty years in future, I see an Earth
I no longer dare to call by that name,
The actions of life on my home
Made the whole galaxy lifeless.
All around I see bones
Bones of an existence to busy to care
A kill after another,
And then suddenly, everyone's dead.
The aftermath didn't turnout the way they wanted,
Being untouched while everyone else cripples by,
It took us too much time to realise,
The earth was ours not just yours or mine.
I stare from a far distance,
How my mother weeps in the death
Of her trillion children,
How she blames herself for not having enough,
I see her blood turn to stone
There's no water we left behind.
We were sure that one half of us will survive,
At least that's what Thanos taught
'The better half', wasn't that what they were called?
I saw the agony in my mother's eyes
As she was chained in metal and nailed in cement
skyscrapers,
Rewind back to now, it's 2021
I know today there's a thousand of you,
Waiting for someone else to change it all,
I know someone's too scared to be the only one
trying,
Too scared to resist a destiny to come by,
But could you promise your guilt won't stride
In your heart, when the aftermath of 'not-doing'
comes by.
I know there are many of you who are sure
One change can't remove all the trace of our dirt
Trust me, the seven billion of us are waiting for one
to start.

KAJAGARI BHATTACHARYA IX

The children took it upon themselves to 'be the change' in making the world a greener place by sowing seeds and saplings.

Admiring the beauty of the world and making others aware of its beauty, the children took photographs of nature at its best.

PHOTOGRAPHY :

Finding inspiration and seeking for positivity during this Pandemic, the children put on their aprons and showed off their cooking skills.

TRADITIONAL COOKING :

LORETO CONVENT TARA HALL SHIMLA

Earth day was celebrated on 22nd April, 2021 to demonstrate support for environmental protection. This year the theme for celebration was 'Restoring Earth'. All students from nursery to class ten participated in various activities. Students clicked photographs of Mother Earth, delivered speeches, painted pictures, adopted plants, grew plants in left over bottles, made salads and wrote recipes. The entire week of activities focused on the environmental issues that the world faces.

LORETO ST.VINCENT'S SCHOOL, THAKURPUKUR

The students of Loreto St. Vincent's School, Thakurpukur, enthusiastically participated in various activities to commemorate our benevolent Mother Earth. On the occasion of the Earth Day, an array of creative activities was organized with a view to sensitize the children about the conservation of natural resources and to motivate them to do their bit towards making their planet even more beautiful. The events of the week rekindled emotive concerns and instigated the youngsters to save, love and respect Mother Nature with all their heart and soul.

জন্মভূমি

হে দেশ, হে আমার জননী,
 কেমন করে তোমায় আমি বলি।
 যে মাটিতে ভর দিয়ে আমি উঠে দাঁড়িয়েছি
 আমি যা কিছু স্পর্শ করি কেবল তোমারই অনুভূতি
 তুমি বিশ্ব জননী,
 তুমি কখনো শীতল কখনো বা তপ্ত গ্রীষ্ম
 কখনো আবার বর্ষার রাণী।
 হে দেশ, হে আমার জননী,
 তোমার কোলে মাথা রেখে দুঃখের দিনে
 শুকিয়ে যায় আমার চোখের পানি।
 হে দেশ, হে আমার জননী হে বিশ্ব জননী, গর্ভধারনী
 তোমার কোলে কত পশু পাখির ঘর
 আর কত গাছের ছাওয়া।
 আর কত সমুদ্র কত নদী সেগুলি জলে ভরা।
 হে দেশ, হে আমার জননী,
 হে জননী যারা নিষ্ঠুর ভাবে তোমার বুকে আঘাত করেছে
 আমার কখনও তাদের ক্ষমা করিনি।
 হে দেশ, হে আমার জননী, আমার জন্মভূমি।

ST. TERESA'S GIRLS' H.S. SCHOOL, DARJEELING

On 19th April the students and teachers pledged to save energy for a better tomorrow by turning off the electric devices from 6:00 p.m. to 6:30 p.m.

VIRTUAL ASSEMBLY

On 22nd April 2021 Earth Day was observed with a virtual assembly presented by the students of Class VIII.

DRAWINGS AND COLLAGE MAKING

The students participated in drawing and collage making activities too.

TAKE A PLEDGE:

The students of Class I took a pledge to Save Earth and to take action by making these pledge cards.

LORETO INDIA

SAPLING PLANTATION:

We planted vegetables and saplings of maple and orange in our homes as part of the Earth Day celebrations.

NATURE PHOTOGRAPHY :

We took time to admire the beauty of Nature and capture it in our cameras.

SUMMER DRINKS

The students made summer drinks out of seasonal fruits to beat the heat as well as to nourish the body.

Ingredients
for lemon juice

1. lemon
2. Black Salt
3. Sugar
4. mint
5. ice cube

Donna Sherpa.
Class 2 A

MAKING CHUTNEY!

Using local vegetables and herbs, the students tried their hands in making varieties of Chutneys and pickles.

Radish Pickle
Ingredients:
RASSH
SALT
SOME SEEDS
CHIPPED CHILLI
SOME LEMON
PROCEDURE:
• Take medium sized radish and cut into fine pieces
• Grind the rasam, seeds and place
• Place the chopped pieces of radish into a bowl and add salt, chipped chilli, rasam and paratha and mix it well.
• After mixing add lemon juice to give the flavour.

Anushka Chetti
Class 4A

ST AGNES' LORETO DAY SCHOOL, LUCKNOW

**Let's turn it all around,
We can make the change.**

These words have always been the guiding and propelling force for every student in a Loreto Institution. A promise to bring the change was made by the students in the junior section (Class Nursery to Class V) on the 22nd of April observed as the Earth Day. The year 2021 marks the 51 st anniversary of Earth Day.

In harmony with the ideals of the JPIC, they participated in various activities with full gusto and a firm believe that they will be the voice of change. Each dedicated student made a promise to heal and nurture the nature for a better future.

Earth Day Activities-

Nursery- Things we get from plants

Prep – Growing plants from food scrap

Class 1- Plantation of a sapling

Class 2- To sow the seeds of a medicinal plant

Class 3- Compost making at home

Class 4- To find out the nutritional value of any 5 green vegetables

Class 5-Growing a herb bed

Class 6- Energy savings at home

Class 7- Grow a fruit or vegetable plant at home

Class 8- Signage making

Class 9- Refrigerator organization

Class 10-video to urge others to take action

Class 12- Compost bin with kitchen waste

Classes 6-12 - Summer drinks and chutney making
